They have been proven to us beyond the possibility of doubt.

Red Cross Pharmacy, Rickert & Wells, Props.

Some weeks ago the astonishing record of this prescription—proven to us by indisputable evidence—induced us to give it our unqualified recommentation to the public. Since then D. D. has cared so many who obtained it from us that its record with us has been fully equal to its previous history. We have not seen a single instance of disappointment. It seems to do the work every time. In nine cases out of ten, manifestations on the skin are sold diseases—not blood diseases. Many purchasers formerly miscrable, thinking they had a had blood disease, have found it was merely a skin affection and have cleared it all away with this prescription.

with this prescription.

Among all the known reliable specific medical influences for different allments we know of very few discoveries so certain in effect as this D. D. D. prescription in its quick conquest of skin discusses of all kinds.

some form of catarrh-some inflammation of the mucous Read what this well-known man, Alderman Peter

A. Wendling, member of the City Council from the 29th Ward of the City of Chicago, says about it:

"Last spring, after I had completed my canvass for election to the City Council, I felt worn out and out of sorts. I could not determine any particular seat of my ailment. I was able to attend to my duties, but any great effort distressed me and I lost considerably in weight. As I had enjoyed uniformly good health I was not greatly alarmed and felt that my trouble would soon wear " Finally I consulted a physician and his

diagnosis was that I was suffering from incipient intestinal catarrh. He advised me to take a course of treatment at one of the celebrated medicinal springs. I was inclined to take his advice but found it difficult to get away from my public and private business. While I was hesitating what to do, one of my political friends advised me to try Mucu-Tone. He told me that it had cured his wife and he said, 'Alderma, it will

eure you.'

"Well, he was right. I think I took four or five bottles during the course of a month, with the result that I was entirely free from pain and had recovered my normal energy and buoyancy. I got back my old weight, and when any of my friends commented on my improved appearance I told them it was all due to Mucu-Tone.

Peter a. Toendling Alderman agth Ward, Chicago."

Alderman Wendling is one of the most popular members of the Chicago City Council. His worth as a man and a legislator is best evidenced by the fact that he is the first republican in a decade to be elected from the rock-ribbed, democratic stronghold, the famous Stock Yards district of Chicago. Certainly such evidence as his must convince even the most skeptical.

Rexall Mucu-Tone cures all catarrhal conditions by relieving the congestion of the mucous membranes. It works through the blood, thus reaching the affected membranes wherever they may be located, driving out the poisons and allaying the inflammation. In addition to this it is a powerful nutritive tonic which revitalizes the blood, quiets the strained nerves and builds up the
